

Roy:

At the 0900 Altny this
A.M. the DCI asked Pete to
review our requirements on
overflights. He ^(DCI) said the Mac
Bundy suggested that our
standards for when to fly fly
are too high. In other words
we may wait until conditions
are unnecessarily favorable.

DCI also asked Pete when
the two modified 4-2s will
be ready on a stand-by basis
to overfly Cuba.
